**DUTIES:**

Under the direction and supervision of the Supervisor of Field Services, or designate(s), will provide field verification of manhole and sewer line locations and depths for construction or construction-related problems. Provide verification of location (horizontal and vertical) of municipal sewers and catch basin leads in the right of way; record location of catch basin using a hand held GPS; record any variations in the Sewer Atlas; assist Construction Technologist with surveying (layout cross section and topography); manipulate and plot digital files using AutoCAD software; assist Construction Technologist with field testing and sampling of construction materials; perform concrete compression tests, granular material tests and record results for review by others; perform physical disconnection of downspouts and preconstruction video and photography of job sites; deliver samples as requested by Supervisor; enter confined spaces for visual observations. During slow periods of time, the Infrastructure Locator Technician can be assigned to perform the tasks associated with the Construction Technician. Will be required to travel to various construction sites utilizing a City of Windsor vehicle. Occupational Health and Safety duties as outlined in the Corporate Health and Safety program. Perform other related duties as assigned.

**QUALIFICATIONS:**

- Must have an Ontario Secondary School Graduation Diploma, or Ontario Ministry of Education equivalency;
- Must have over one (1) year of Construction experience in inspection, surveying and construction material testing in a municipal environment;
- Must hold and maintain a current, valid and lawful Class ‘G’ Driver’s license in accordance with the Highway Traffic Act, for the purposes of operating a City of Windsor vehicle and must provide a driver’s abstract as a condition of employment;
- Preference will be given to candidates with experience in underground sewer or utility location;
- Completion of courses sponsored by the Ontario Ministry of Skills Development (Total Station Surveying, AutoCAD) will be considered an asset.
- May be required to lift materials weighing up to 45 lbs.
